INFORMATION ABOUT THE SERVICE

Description of the service

Yomojo Community Fibre broadband service uses the Community Fibre network to deliver broadband to your premises.

Where is it available?

These services are available in any building where Community Fibre has been installed.

How do I access this service?

You will need specific Community Fibre equipment installed at your property. If this is not installed already, Yomojo will organise Community Fibre to install the required Network Termination Device (NTD) as part of your order.

You will also need a modem/router that is compatible with a RJ45/ethernet hand off from the Community Fibre NTD.

IP Address

By default, all Yomojo Community Fibre services are provided with Carrier Grade Network Address Translation (CGNAT). You may request a static public IP address for the following monthly fee;

IP Add On	Monthly Fee
Static IPv4 IP address	\$5.00

Speed

The speed tiers mentioned above are the theoretical maximum speed of connecting your premises to the Community Fibre network.

The actual speeds experienced may change based on demands on the network.

Minimum Term

1 month with no fixed term

Is this plan bundled with any other Telecommunications Service?

You don't need to bundle this plan with another Yomojo service however you may be eligible for discounts if you do.
