1 VOICE, SMS AND DATA CHARGES

All National & International Voice, SMS, MMS and Data will be charged as at the rates listed in the pricing tables listed in the appendices at the end of this document.

1.1 Voice Calls

When you make a call, we calculate the price between the time the call is answered and the time the call is terminated. We will charge in increments of 60 seconds, meaning that charges for a part of a minute call will be rounded up to a full minute and charged at our per minute rate. For example, if you make a 1min:44sec call, the charge will be calculated based on a 2min call.

1.2 SMS and MMS

SMS messages will be charged per standard text message rate. Standard text messages hold up to 160 characters - this can vary depending on your mobile phone. If you use more than your limit of characters in one message you will be charged for separate text messages and standard rates apply. For example, 165 characters will be charged as two separate messages.

MMS will be charged per standard message rate. Receiving both MMS and SMS in Australia is free of charge.

1.3 Data Usage

A session of data is measured between the start and end of a transaction between your mobile and your Internet destination. This includes websites and applications for smartphones. Handsets operate in different ways; for example, one handset may view numerous websites / applications as one session, while another may view each individual website / application as a separate session. Irrespective of which way or the number of sessions, you will be charged for the volume of data in each session.

For 4G services and 3G services, both uploads & downloads are counted towards data usage. Data is charged per KB (1 GB = 1024 MB, 1 MB = 1024 KB).

1.4 Yomojo Plans

Yomojo has numerous Mobile Plans, Mobile Broadband Plans and Home (Fixed) Wireless Broadband Plans on offer. Mobile Plans include bundled allowances of Voice, SMS, Data, and possibly International Voice. Mobile Broadband and Home Wireless Broadband Plans include an allowance of Data. All plans auto-renew unless cancelled.

Allowances are 'charged' in the same manner as standard usage however rather than a monetary cost, the balance of the allowance will be deducted by the volume of usage. For example, if you make a 1min:44sec call, the voice allowance balance will be reduced by 2 minutes. For "unlimited" allowances, the volume or duration is not relevant.

The Plans we offer, the amount or value of the included allowances, and the price of those Plans is constantly reviewed and updated. You will find information and pricing for each current Plan on our website, including the applicable Critical Information Summary (CIS) at <https://yomojo.com.au/cis>. You will find the CIS for previous Plans under the 'Previous Plans' section of the Critical Information Summaries webpage.

2 INTERNATIONAL ROAMING CHARGES

2.1 Overseas Voice, SMS, MMS, Data Charges

All outgoing & incoming Voice, SMS, MMS and data usage while outside of Australia will be charged at international roaming rates from the (roaming) country of origin to and from Australia. Flag fall (connection fee) and additional charges may apply while roaming, e.g. welcome SMS.

Roaming usage will be charged at the rates listed in [APPENDIX C](#). Roaming is turned OFF by default. It can be turned ON in your Account Settings.

Monthly Billing customers may hit their credit limit while roaming, especially with data turned on. This is to protect you from overspend and eliminate bill shock. Once your credit limit is reached, you will no longer be able to use your service.

After you have been roaming, it may take several months for all charges from your time overseas to appear on your bill.

2.2 Using Voicemail Overseas
